

TriStar Family Chiropractic

A Family Wellness Center

Dear New Patient,

My name is Dr. Gloria Arroyo-Grubbs and I am so very pleased to announce my new partnership with Autism Empowerment & HOPE Dementia Support Group. *By setting your appointment at my practice, I wanted to let you know that a percentage of the initial fee is donated to both non-profit organizations.*

With over 20 years of experience in the healthcare field, I have developed a passion and a mission to teach families how to view and manage their health from the inside out at any age! Of those twenty wonderful years, I spent ten years in senior care starting as a personal care assistant and moving my way up to a Licensed Administrator/ Executive Director. Before Chiropractic school, I ran a 72 bed dementia care community for over 4 years and that was my heart!

As a long time dementia support group educator and family member of two loved ones with dementia, I knew that I had to find some answers. Therefore the past ten years, I have dedicated myself to the Chiropractic & Wellness field involved in research and specializing in pediatric mental health, developing autism/spectrum and dementia wellness programs. I have seen amazing results when I and the supportive families are on the same team of treatment and dedication. I am excited to bring my passion, experience and knowledge working with the senior community to Vancouver!

Many Blessings,

Dr. Gloria Arroyo-Grubbs, DC, B.A., B.S.
